March 22nd 2010

Dear Sir/Madam,

I recently received three violations from the Town's Code Enforcement Department of which I would like to address and seek your advice.

1st Violation

We were cited for having our outside chairs and tables stored behind our dumpster (out of sight to the public) – These are the tables and chairs that we use for our outside events on a Saturday night. I would dearly like to erect a free standing shed behind the dumpster to store all the chairs and tables. It will keep them from the elements but will also make the back area far more tidy and neat looking.

I would like to buy an off the shelf shed from Home Depot that will fit perfectly behind the dumpster, will be out of sight to the public and will not hinder any drainage. Code Enforcement advised me that I do not need a permit but need permission from the towns Commissioners.

I have attached a copy of the storage shed I would like to purchase. Would you be agreeable to this?

2nd Violation

Our "Green Area" has no grass! – It is very difficult to maintain grass at the rear of the restaurant. Foot traffic, crossing over to the boiler room and general wear and tear makes it impossible to susyain grass. I could lay turfs but I would be doing it every month or so which is a big cost and extra work

Would the Commissioners be amenable to me laying "Astro-Turf" – Basically fake grass? I don't know the cost of it but it will at least be Green!

3rd Violation

We were cited for our waste oil drum being dirty and allowing it to spill on the ground. I have since had the drum pressure cleaned and all oil removed from the ground. I replaced the area around the drum with sand/cement mix. I will work with Code Enforcement to come up with a solution so that this does not happen again.

One suggestion is to have a large metal "tray" placed under the drum. I have called the company that removes our waste oil (and whom we lease the drum from) to see if they have anything that will suit our needs. I will follow up with them and continue working with Ms. Kim Williams in Code.

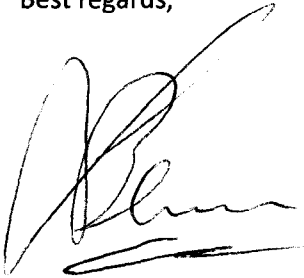

As always, I will work to ensure that the restaurant stays within local laws and code. However, any assistance you can give me with the above violations would be greatly appreciated.

I can be reached at anytime on my cell phone 954-610-7619

Thanking you in anticipation.

Description

Discover the value of compact storage in your own backyard with the 122 cubic feet Garden Shed. Perfect for yard equipment, bicycles and much more, this multi-purpose storage center comes with a steel floor frame that is perfect for a plywood floor finish (wood is not included). You will get added storage space with four large shelves and a handy tool hanger rack. Swing-open, core-backed doors provide added storage space. The slightly sloped roof makes the unit great for placement against a wall or as a free-standing unit. The building is backed by a strong 12 year limited warranty. Styled with eggshell walls, roof and doors with taupe gables and trim.

DEVELOPMENT
SERVICES

Sec. 30-313. General provisions.

(31) *Accessory buildings and structures.* On a lot containing a single-family, duplex or townhouse dwelling, side and rear yard setbacks not abutting a street may be reduced to five feet for accessory uses and structures.

a. Accessory buildings may not exceed one story on any lot containing a single-family detached dwelling unit.

b. Accessory buildings shall not exceed half the height of any principal building on lots containing two-family or multiple-family dwellings. On any plot containing grouped dwellings of varying heights, accessory buildings shall not exceed half the height of the lowest building on the plot.

c. One-story accessory buildings shall be at least ten feet from any other accessory building and ten feet from any principal building on the same plot or parcel.

d. The aggregate floor area of all accessory buildings shall not exceed five percent of the plot area.

e. No accessory building shall contain more than 50 percent of the floor area of the principal building.

f. Accessory buildings in commercial zoning districts may be allowed, subject to Town Commission approval. Staff shall apply the standards listed above as best as possible before the Town Commission reviews the accessory building in the commercial zoning district.
